

CHING-LIN HUANG

huan2919@umn.edu ◊ (763)-485-2249 ◊ [github](#)

EDUCATION

- Ph.D., Ecology, Evolution, and Behavior, University of Minnesota, Twin Cities** 2024-
Advisors: Dr. Allison Shaw
- M.S., Institute of Ecology and Evolutionary Biology, National Taiwan University, Taipei, Taiwan** 2020-2023
Thesis title: *"Disentangling ecological processes underlying the metacommunity by integrating several analytical methods"*; Advisors: Dr. David Zelený
- B.S., Department of Mathematics, National Taiwan University, Taipei, Taiwan** 2016-2020

PUBLICATIONS AND CONFERENCES

Manuscripts

- **Huang, C.-L.**, Zelený, D., Chang-Yang, C.-H. (2023) "Integrating several analytical methods to assess strength of ecological processes behind metacommunity assembly." *Oikos*, e10166, <https://doi.org/10.1111/oik.10166>

Conferences

- **Huang, C.-L.**, Zelený, D. (2022) How well do available methods quantify the importance of assembly processes in ecological community data: a simulation approach. The 10th Biennial conference of the International Biogeography Society

WORKING EXPERIENCE

Research assistant

- **Ke Lab, National Taiwan University** PI: Dr. Po-Ju Ke Starting Fall 2023

- Studying how the interactive effects of soil microbial conditioning and decay time determine the competitive outcome and stability of plant community
- Greenhouse experiments to explore how and how long the microbial conditioning after plants die would influence plant growth
- Theoretical modeling to explore how age/stage-dependent plant-soil microbe interactions would affect competition consequences

Part-time research assistant

- **Vegetation Ecology Lab, National Taiwan University** PI: Dr. David Zelený 2020-2022

- Studying how fog frequency affects plant taxonomic and functional turnover in multiple scales
- Field data collection, including overstory and understory census and leaf traits collection
- Identifying fog specialist species by analyzing data from herbarium and vegetation survey and remote sensing

Teaching assistant

- **Introduction to Theoretical Ecology ([Course Link](#))** Lecturer: Dr. Po-Ju Ke Fall 2022
- **Numerical Methods in Community Ecology** Lecturer: Dr. David Zelený Spring 2022
- **General Botany Lab** Lecturer: Dr. Fen-Ming Lee Fall 2021
- **Introduction to R for Ecologists** Lecturer: Dr. David Zelený Fall 2020
- **Calculus** Lecturer: Dr. Ya-Ju Tsai Fall 2019- Spring 2020

OTHER EXPERIENCE

Journal manuscript referee

- *Journal of Vegetation Science* (1 review)

Selected field survey experience

- | | |
|--|-------------|
| - Overstory and understory composition survey and leaf traits collection in fog frequency gradient transect in Northern Taiwan | 2021-2022 |
| - Leaf trait collection, and seedling survey in Fushan Forest Dynamics Plot | 2019-2020 |
| - Tree census in Lalashan Forest Dynamics Plot | 2019-2020 |
| - Tree and seedling census in Kenting Forest Recreation Area | Summer 2019 |
| - Tree census in Fushan Forest Dynamics Plot | Winter 2019 |
